

LABC NHW LAUNCH EXCELLENCE AWARDS FOR 2010

LABC NHW is delighted to announce the launch of their 2010 Awards for Excellence.

Now in their 3rd year, these awards were introduced to recognise developers and site managers who have stood out from the crowd by embracing customer service, high quality design and build, as well as tackling environmental issues – especially in the current difficult climate.

This year they have changed the way their site manager awards are judged and all site managers who are working on nominated developments will now automatically be entered into the competition.

LABC NHW praised the standard of entrants for the 2009 awards whose winners included Berkeley Homes, Frank Haslam Milan, Optima Housing Association and Manorcrest Homes.

Rob Atkins, FHM's Technical Co-ordinator, said:

"This was FHM's first development using the LABC for Building Control and Home Warranty, and we were very impressed with the professionalism we received. Winning this award is just fantastic and demonstrates how our dedicated and enthusiastic new build team strives to produce exceptional social housing which is beyond the expectations of our clients."

LABC NHW Award Categories for 2010:

- Development of the year (single unit)
- Development of the year (2-10 units)
- Development of the year (11-49 units)
- Development of the year (50+)
- Social Housing Development of the year
- Mixed Use Development of the year
- Conversion Project of the year
- Architectural Design of the year
- Environmental Development of the year
- Developer of the year

LABC NHW is inviting all developers, contractors, housing associations and RSLs who are currently working with them, and feel that they deserve recognition in any of the award categories, to nominate their chosen development.

The self-nomination form can be downloaded via www.labcnhw.co.uk/awards.
The closing date for all applications is 5th July 2010.

Entrants simply need to return the application form along with any additional information, images or drawings to support your nomination. Also include a statement (no more than 500 words) of why you feel you should be shortlisted for each award you enter. The nominated site must be covered by LABC New Home Warranty to qualify.
